## CCC 12/13 - 001: Ferrymead Bridge Replacement and Approach Works

### Letter to Residents in close proximity to the St Andrews Hill Rd Regarding St Andrews Hill Road Closure

To the Resident

Dear Sir/Madam

On Monday 16<sup>th</sup> of March from 0700hrs, we intend to start undertaking works on St Andrews Hill Rd as part of the Ferrymead Bridge Replacement and Approach works.

The works involve the installation of a retaining wall, installation of new stormwater drainage system and formation of the new road and intersection design to tie into Bridle Path Rd.

Due to the extent of works within this area we cannot safely undertake these works while St Andrews Hill Rd is operating. A road closure will be in place for the extent of the works. These works will take approximately 2 months.

Please see attached our suggested detour route and an alternative route if desired.

We apologise in advance for any inconvenience these works may cause.

If you have any queries please feel free to contact me.

Regards,

Grant Beattie  
Project Manager
